Our Study Program

Content

You will specialize mainly through your Master's project. You can also deepen your knowledge through our electives modules (Change Management or Innovation Management).

Successfully implemented project examples

Example 1

Persuasive Offering – Creating better business proposals

Example 2

Identifying and improving critical success factors for large urban development projects

Our MBA partner

Post University was founded in 1890. Based in Waterbury, Connecticut, USA, Post University is renowned for **quality, career-enhancing study programs and small seminar groups**.

The **Malcolm Baldrige School of Business** is the business school of Post University. It is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). The lectures at the Malcolm Baldrige School of Business are **senior-level business experts** with **many years of teaching experience**.

Our Study Format

Furthermore, the graduates of the alumni survey 3 years after completing their studies are convincing with the following results:

94 % of the alumni evaluate the Experience Based Curriculum (EBC) as good to very good.

Our Experience Based Curriculum (EBC) guarantees long-term learning effects by trying things out under real conditions with the support of experts instead of just learning by heart.

You work on one or more projects that are of particular benefit to your partner company. In addition to your regular day-to-day work, which you manage, you have the opportunity to shape corporate development through your own projects.

54 % of the alumni have a management position three years after graduation.

10 % of all alumni have founded a company within three years after graduation.

One format – several features

Hybrid

According to the preferences, the proportion of on-site or live online seminars can be controlled during the course of study to a certain extent

Work-integrated

Study on real-world project integrated with professional activity

Flexible

Spatial and temporal freedom through continuous study on the learning platform of the Post-University

Collaborative

Focus on intensive exchange and networking

79,000 € is the average salary of the alumni three years after graduation.

„The German-US-Dual-Degree (M.Sc./MBA) programme in cooperation with SIBE and Post University helps me to combine previously learned operational content with strategic aspects and apply it in the best possible way in the working world. Through the two-year company project, it is not only possible to face different scientific perspectives, but also to create added value.”

Katja Michel, M.Sc.-Alumna

„From my point of view, the MScMBA is unique because the theoretical experience of the study program is complemented by practical experience in the company. The continuous input from Post University as well as the reality-based design of my real world project with Steinbeis SIBE is particularly helpful.”

Philipp Coßmann, M.Sc.-Alumnus
